ABOUT US

ACCURATE READY MIX CONCRETE

A Brand that breathes Trust, Quality and Delivery.

ACCURATE RMC is a associate concern of well-known engineering and real estate group "Suraj Estate Developers" of Kolhapur engaged in residential and commercial real estate projects, building constructions and architectural and structural design consultancy work from last 25 years.

Fully automized RMC plant with well equipped testing laboratory, delivery vehicles, concrete pump & qualified staff makes ACCURATE RMC ready to give best service at best value.

Our Team of experts and advisors make sure that product delivers the same quality and trust.

We are committed to deliver the consistent and in time product which makes your dream project a reality.

PLANT & MACHINERY

We have installed well equipped & fully automated modern RMC batching Plant of renowned German Company "Schwing Stetter" having 45 cum/hour capacity with star walls and silos for cement and flyash.

We also have modern concrete pump for easy pouring of concrete at site and transit mixers for transportation at site.

Weigh bridge and testing lab facility also available at plant.

OUR PRODUCTS

We provide range of products depending on our customers need currently ranging from M-10 to M-40. With different combinations of Flyash, Crush Sand, Cement and River Sand,

New Products like -

- Foundation Concrete
- High Strength Concrete
- Free Flowing Concrete
- Green Concrete
- Water Proofing Concrete
- Paving Concrete

can also be made available at the request of customer.

QUALITY

Following all the standard operational procedures along with high quality inputs like cement, sand, water, chemical admixtures, we make sure they are pre-tested and quality assured which guarantees accurate output product. In addition to that the final product is tested in well equipped and calibrated testing laboratory and also weighed at weigh bridge in the plant premises giving us end to end control of the product quality.

INNOVATION

We understand the importance of innovation and upgradation. Innovation drives quality and profitability to our clients. We strive hard with our team of experts and advisors to constantly improve and innovate the RMC technology for making concrete affordable and of best quality.

ADVANTAGE

- Consistent Quality Concrete
- Higher Speed of Construction
- Zero Material Procurement and Storage Hassle
- Saving on Labour
- Substantial Wastage Reduction
- Improved Life Cycle Cost
- Eco-Friendly production practices
- Less manpower engagement

DELIVERY

Located at Halondi on Sangli - Kolhapur Highway and 10 Kms from Kolhapur city gives us a unique reach in the region.

We are committed to deliver in the radius of 50 Kms from our plant.
